

M-Zone WrapMop in NovaPoly

2-ply, Thin Foam, and No Foam, Irradiated

Product Features:

- Designed for controlled environments, pharmaceutical production and hospital pharmacies
- Quality features of covered foam combined with economical design
- Low Profile design
- Angled head for easy application of disinfectant or detergent
- Available in Polyester, Microfiber and MegaTex materials

Description:

An economical flat head mop. The M-Zone WrapMop utilizes the Plastic SlimLine Adapter with the addition of flexible plug inserts which allow for easy attachment.

The Mop Adapter is available in 14" widths and features a swivel joint to allow easy coverage of floors, walls and awkward corners.

WrapMops are available in 100% Polyester, Microfiber for additional cleaning power, or MegaTex for cleaning rough/textured surfaces or removing heavy deposits. Options available with thin or thick foam interior for increased absorbency.

All WrapMops are economical enough for single use but can be laundered and re-used. The WrapMops are compatible with alcohol, strong disinfectants and steam sterilization.
