BCR® Folding Mop Head & Telescopic Handle Set

Product Information

ISO Class 3-8

Cleanroom Class 1-100,000 EU Grade B/C/D USP <797>

Discover the next generation of cleaning solutions with a mop designed for exceptional durability, convenience, and user comfort. Featuring a rust-resistant stainless steel head for long-lasting performance, this mop allows seamless mode switching for complete 360° coverage, a lightweight aluminum handle with easy extension, and a hygienic release lever that reduces contamination risks. Built with cleanroom standards in mind, the telescopic handle can also be fully disassembled for effective autoclaving, ensuring the highest levels of cleanliness and safety.

ONE TELESCOPIC MOP HANDLE
Material: Aluminum and Polyamide Neck Locking
Dimensions: 32.5-59 in (82.5 x 150 cm), .45 kg (.99 lb)

ONE FOLDING MOP HEAD
Material: Stainless steel
Dimensions: 15.5 x 4 in (40x10 cm), .55 kg (1.1 lb)

Mop head & handle together = 1 kg (2.2 lb) (without packaging)

Key Features:

Durability: Constructed from stainless steel, the mop head is resistant to rust and corrosion, ensuring longevity.

Cleanroom Suitability: The release lever facilitates unloading soiled mop covers to reduce the spread of contamination.

Engineered Convenience: Quickly switch from fixed mode to rotatable mode with the push of a button for 360 ° coverage of hard-to-reach areas.

User-Friendly Design: The lightweight aluminum handle reduces strain on operators and features a twist-locking mechanism for easy extension.

Autoclavable: The telescopic handle can be disassembled for easy autoclaving (recommended 121°C, 30 minutes).

Applications:

It is ideal for mopping floors, walls, and ceilings, in cleanrooms, hospitals, and food processing facilities.

Berkshire ENGINEERED CLEAN

Compatible Mop Covers

Choose from a variety of mop covers compatible with the BCR® All-in-One Stainless Steel Mop Cart System, each designed for efficient cleaning of floors, walls, and other large surfaces critical to the overall cleanliness of the production environment.

BCR® Flat Mop Cover Microfiber (MF) Composition and Advantages

- Made with 100% knitted microfiber polyester outer layer and multiple 100% nonwoven polyester inner layers to provide superior absorbency and cleanliness
- All edges are over-edge stitched for reinforcement and to prevent fiber shedding
- Excellent absorbency capacity (>3x weight of mop cover) improves overall cleaning efficiency
- The microfiber mop surface provides higher efficiency removal of contaminants during the cleaning process
- Use with Berkshire's Flat Mop Head or can be used with alternative flat mops
- Autoclavable (recommended 121°C for 30min)

Order Information:

Product	Number	Size	Covers/Pk	Pks/Cs	Style
Flat Mop Cover MF	FMCMF24	16x5" (40x12cm)	5	24	Stacked
Flat Mop Cover MF, Irradiated	FMCMF24IR	16x5" (40x12cm)	5	24	Stacked

BCR® Flat Mop Cover Polyester (PET) Composition and Advantages

- Made with 100% knitted polyester outer layer and multiple 100% nonwoven polyester inner layers to provide superior absorbency and cleanliness
- All edges are bound for reinforcement, durability and extremely low fiber shedding
- Designed for the capture and removal of contaminants during the cleaning process with high tear strength
- Excellent absorbency capacity (>3x weight of mop cover) improves overall cleaning efficiency
- The smooth knitted polyester mop surface provides excellent dispersal of disinfectant
- Autoclavable (recommended 121°C for 30min)
- Use with Berkshire's Flat Mop Head or can be used with alternative flat mop
